(Battery type,CY2025)

INSTALLATION

The device is an overhead, fold-down 9" monitor with an IR Infrared eye.
It will accept 2 video signal from any video sources with composite video out.
1.Look over the vehicle for a location for the monitor. Each vehicle is different and locations will vary. Make sure the monitor will not interfere with the Driver.
2.once a location has been determined, connect the IR, A/V RCAs and Power cables to the designated sources.
3.Feed the cables through the hole in the mounting bracket and screw the bracket to the headliner. Use short screws so as not to damage the roof.
4. Mount the monitor with the provided hardware.

WIRING

Read all wiring precautions. If you are not sure of the connections, please contact your authorized dealer.

1.Disconnect the negative (-) lead of the battery before making any power connections.

2.When creating passage holes for the power wires, use grommets to eliminate any sharp edges created during drilling. This will protect the wire from being nicked and causing a short circuit.

3.When connecting the ground lead, fasten the ground lead(black) securely to a clean metal plate on the vehicle.
